Sir:

SUPPLEMENTAL AMENDMENT

This submission formalizes the amendment informally e-mailed to Examiner Cherry on September 27, 2005. Pursuant to a then just completed telephone conference with Examiner Cherry to obviate all outstanding formal issues. In summary, Examiner Cherry explained that this application would be allowed if: (a) the parameter \bar{K} was explicitly included in the explanation and (b) an input to the process was explicitly recited. The following amendment was then proposed to accomplish both these requests. However, on October 4, 2005 Examiner Cherry telephoned to explain that he was concerned about adequate support in the specification and drawings for this amendment. Accordingly, it was agreed that the amendment should now be formally submitted for entry -- thus giving the Examiner time and opportunity to issue a further office action, if thought appropriate.
